

# Scholarships that Work

Furthering Your Future  
in the Insurance Industry

Building  
an Ohio  
Talent  
Advantage

Every year, the Ohio insurance industry has

**2,000 job openings**  
for new and replacement jobs.

By 2015, the Ohio insurance industry is expected to add

**6,323 workers,**  
outpacing the national  
growth rate.

Median salaries for core insurance occupations  
(excluding sales agents) range from

**\$50,000 to \$77,000**

Over **7,000 businesses**  
in Ohio employ more than 100,000  
workers in the insurance industry.

### **"Being There" for People in Need.**

*When caring for your business—starting a new business venture, protecting your product inventory, providing security to your workforce—*

*When shielding your family—vehicle protection, health care assistance, life time security —*

*When bad things happen—a car accident, a fire, a health crisis—*

One of the first calls people make in all of these life scenarios is to their insurance company.

Their insurance team will be the individuals who provide the advice, support, and comfort to get them through a difficult time, an expansion plan and day-to-day life changes. With the right training and skills, you could be part of that team. And now is a great time to sign up.

"Aiding businesses to flourish and grow, assisting in developing plans for a person's future and being there for people in need" are not duties one finds detailed in the typical job description. Add to that variety, a career with growth opportunities, flexibility and competitive wages and it all adds up to a career in the insurance industry.

*This booklet is courtesy of funding from the Ohio Department of Jobs and Family Services and the Ohio Board of Regents.*

## An Industry Need Becomes Your Opportunity

A growth industry in Ohio, over **7,000 businesses** employ more than **100,000 workers** in this industry, and every year Ohio's insurance industry has roughly **2,000 job openings** for new and replacement jobs. As a continuing trend, Ohio's insurance industry employment is expected to **outpace the national growth rate** through 2018.

Because the insurance industry is serious about securing the "right" talent with the education and training to make Ohio globally competitive, the insurance industry and their partners offer scholarships to qualified individuals to help them get started—or further their current education. That's when a growing industry becomes your opportunity.

## Scholarships that Work

The scholarships in this booklet represent **well over \$150,000 of educational benefits** (excluding full scholarships) and are designed to assist a wide range of student needs, geographical locations, and industry requirements. The list includes a description of the scholarships, eligibility requirements, and Web addresses for complete details on the application process.

Do a little homework now—and your future could include a worthwhile, in-demand career in insurance.
